Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. ***Claims 1-4, 15, 16, 25-28, 31-40, 43-46, 57 and 58*** are rejected under 35 U.S.C. 102(e) as being anticipated by Katzenberg et al. (United States Patent 6,218,930), hereinafter referenced as Katzenberg.

Regarding **claim 1**, Katzenberg discloses an apparatus and method for remotely powering access equipment. In addition, Katzenberg discloses an electronic circuit for receiving a differential mode signal on a first pair of conductors and transmitting a signal on a second pair of conductors, the circuit comprising: a first steering circuit responsive to the differential mode signal on the first pair of conductors for generating a first electrical signal on one of the second pair of conductors; and a second steering circuit responsive to the differential mode signal on the first pair of conductors for generating a second electrical signal on the other of the second pair of conductors, the first and second electrical signal together constituting a loop back of the differential mode signal, as disclosed at column 2, line 36 through column 4, line 5 and exhibited in figures 1-3.

Regarding **claim 2**, Katzenberg discloses a first steering circuit responsive to the differential mode signal on the first pair of conductors for generating a signal on one of the second pair of conductors; a second steering circuit responsive to the differential mode signal on the first pair of conductors for generating a signal on the other of the second pair of conductors; and circuitry responsive to application of a DC voltage level disabling the first steering circuit, as disclosed at column 2, line 36 through column 4, line 5 and exhibited in figures 1-3.

Regarding **claims 3, 4, 15, 16, 25-28, 31-40, 43-46, 57 and 58** are interpreted and rejected for the reason set forth above.

Allowable Subject Matter

2. ***Claims 5-14, 47-56*** are allowed.
3. ***Claims 17-24, 29, 30, 41, 42, and 59-66*** are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jefferey F. Harold whose telephone number is 571-272-7519. The examiner can normally be reached on Monday - Friday 9 am - 5:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sinh H. Tran can be reached on 571-272-7564. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
